

PRESS INFORMATION

TECHART for the Porsche 718 models. World Premiere at the ESSEN MOTOR SHOW.

Essen, November 25th, 2016

TECHART refines the new Porsche 718 models with a versatile range of individualization options. The Appearance of the 718 models gets sharpened with a new aerokit and the 21-inch Formula IV wheels. And also in terms of performance and sound the 718 models can be upgraded: With the new powerkit for the 2.5l engine, 400 hp are at the driver's command. The TECHART exhaust system »Racing« with 2 central titanium tailpipes and carbon fiber tips, clearly underlines the sportiness of the mid-engined sport car. When it comes to the interior, TECHART offers a new level of individuality composed of leather, carbon fiber and lacquering.

The new TECHART aerokit for the Porsche 718 models.

The TECHART aerokit underlines the sport-focused character of the 718's driver. The design embodies technical and functional quality, as well as a classy treatment of the vehicle's characteristics shape. Made of premium materials, all parts are distinguished by trouble-free installation, perfect technical compatibility, high load bearing capacity and dimensional stability, combined with a low weight.

The two-piece front spoiler I features an integrated splitter and integrates seamlessly with the front apron. The fixed rear wing I is mounted directly on the rear lid and enhances the sporty look even at standstill.

Driving dynamics, tailor-made. TECHART powerkits for the 718 models.

Breathtaking design and sophisticated technology are an inherent part of all TECHART programs. New TECHART performance options set the 718 models apart from the series models. – As always, backed by the TECHART TECHTRONIC warranty and the security of genuine TECHART OE quality.

With the new TECHART powerkit for the 718 Boxster S, 400 hp and 480 Nm are at the driver's command (series: 350 hp, 420 Nm). The powerkit features the reliable TECHART TECHTRONIC engine management. The 50 hp power boost is automatically active in SPORT and in SPORT PLUS mode.

TECHART sport exhaust with two central tailpipes for the 718 models:

The TECHART performance options raise the heartbeat of all 718 owners. Such as the sport exhaust systems for sporty and unique soundscapes. The exhaust features dynamic valve control for audible driving pleasure whenever you're in the mood and underlines the sportiness of the mid-engined 718 models gets clearly in every driving mode.

For the 718 models, the TECHART exhaust system »Racing« features two central titanium tailpipes with carbon fiber tips, that give an unmistakable statement. As a option the TECHART exhaust system »Racing« can also be installed with the factory tailpipes.

Personality, 360 degrees: TECHART wheels in 20- and 21-inch size.

Genuine TECHART wheels are distinctive design which perfectly complements the new 718 models. Designed and engineered by TECHART in Germany, following the renowned quality standards of the brand.

PRESS INFORMATION

TECHART for the Porsche 718 models. World Premiere at the ESSEN MOTOR SHOW.

For the 718 range, the 21-inch TECHART Formula IV wheels offer brilliant styling and freedom for further individualization: with a pinstripe matching the color of the brake callipers, color-coordinated with the interior trims and stitching, bi-color or multi color painted or with a sporty matt finish.

»Exclusive« means »Yours«. The full TECHART repertoire creates a truly unique 718.

The in-house saddlery transfers the individual preferences of its owner to the interior design of the 718 models, manufactured by TECHART in unsurpassed craftsmanship.

The illuminated TECHART aluminium door entry guards give an eye-catching welcome. Besides full individual treatment of the interior, TECHART assists its customers in setting selective highlights such as any kind of leather refinement and upholstery, decorative stitchings, carbon made or lacquered seat backpanels, in-house produced carbon trims and lacquered surfaces or color-matched instrument dials.

TECHART steering wheel: TECHART »Type 7«, smaller in diameter and optionally heated.

The TECHART »Type 7« sport steering wheel uses the 718's optional Porsche GT Sport steering wheel as its basis. From the raw steering wheel rim, TECHART's master craftsmen then give it its typical ergonomic shape, padding and finish it with finest leather, lacquered trims, carbon fiber segment, Alcantara, leather piping and any other TECHART options the customers may choose to individualize their steering wheel, before it is finally sewed by hand.

Any functionality of the original steering wheel is maintained such as multifunction, paddle shifters as well as the optional Mode selector. All TECHART steering wheels based on a heated series steering wheel are now available with an optional heating, so this comfort feature can be maintained even though the steering wheel is fully individualized. The paddle shifters integrate seamlessly with the personalized character of the steering wheel and interior, if the customer decides for TECHART's new paddle trims, made of fine leather or Alcantara.
