TECHART for the Porsche Macan models.

Essen, November 25th, 2016

TECHART decisively sharpens the profile of the Porsche Macan models. The distinctive bodykit and powerkits for the Macan, Macan S, Macan S Diesel and Macan Turbo provide sporty options of individualization. The TECHART program for the compact SUV includes aerodynamics, engine performance, exhaust systems, suspension, wheels and interior refinement. Automotive self-fulfilment for every taste.

Exterior – TECHART styling and aerodynamics

The TECHART aerokit for the Porsche Macan models proves a clear TECHART design language. Attributes of the basic vehicle's sporty lines are consequently highlighted.

TECHART front spoiler, TECHART side skirts, TECHART roof spoiler, TECHART rear spoiler trim and the TECHART rear diffuser are made of high-quality PU-RIM. This lightweight fibre composite material provides solid resilience and is distinguished by precision as well as by ease of painting, installation and maintenance capabilities.

Characterized by low tare weight, precise surface finishing and individual design options, the in-house produced TECHART sports package carbon sets sincere styling highlights. The TECHART duct trim at the Porsche Macan Turbo's vehicle front, as well as TECHART side mirror trims and the TECHART roof spoiler for all Porsche Macan models are available in carbon fiber. Design trims in attractive accent colour open up countless opportunities of personalization. Through TECHART Individual Paint standard vehicle elements like fog light trims, air intake uprights, front wings or side blades fit seamlessly into the desired play of colours.

Performance and driving dynamics – TECHART powerkits

TECHART Power Kits, based on the intelligent TECHART engine management system TECHTRONIC, elicit additional power output for petrol and diesel engines. The TECHART engine management system TECHTRONIC, which is quick and easy to install, impresses with its fully electronic protective functions and the vehicle's service and diagnostic capabilities which remain complete. Like every

factory-new TECHART product, the high quality standards of the TECHART Power Kits are backed by a two-year limited warranty. But more than that, TECHART grants an additional warranty on damages at engine or gearbox according to the TECHART TECHTRONIC Warranty Terms.

For the Macan with the 2.0l engine a new powerkit with at least 300 hp will be launched in early 2017.

The TECHART powerkits for the Macan models

Torque Increase	+ 90 Nm	+ 60 Nm	+ 100 Nm
Total Power output	225 kW (300 hp) /670 Nm	287 kW (390 hp) /520 Nm	353 kW (480 hp) /650 Nm
0-100 km/h (PDK witch launch-control)	5.7 s (series 6.1 s)	4.9 s (series 5.2 s)	4.4 s (series 4.6 s)
Top track speed	237 km/h (series 230 km/h)	261 km/h (series 254 km/h)	274 km/h (series 266 km/h)

Action. – Whenever you're in the mood.

TECHART Exhaust Systems Sport for the Porsche Macan models.

Audibly fast. The TECHART Exhaust Systems Sport, made of stainless steel, ensure that you're not only able to feel, but also hear the strength of the Porsche Macan models. Separately controllable by the press of a button at centre console, it provides a distinctive and rich sound with a high recognition value. The exhaust system can also be used even when closed under full load across the entire speed range and in all driving modes. TECHART sport tail pipes in stainless steel and attractive dual oval design with embossed TECHART logotype provide visual significance; also suitable for the standard exhaust system.

TECHART suspension and wheels for the Porsche Macan models.

TECHART injects the Porsche Macan models with additional variability and sportiness. The TECHART Air Suspension Module Sport, already available for the Porsche Cayenne models, has been intelligently adjusted to the vehicle levels of the Porsche Macan models. It enables a user-friendly ride height adjustment in driving, loading and parking condition for vehicles with standard air suspension. The normal level remains unchanged from the serial settings. When choosing the low level manually or driving in Sport Plus mode, the vehicle lowers by approx. 30 mm in comparison to the normal level and remains activated during all speeds. Hence the TECHART Air Suspension Module Sport generates an approx. 20 mm lower total vehicle level compared to the standard model, which drags down the body visually closer towards the asphalt, generating a more sportive look.

Thanks to the TECHART Air Suspension Module Sport the vehicle's rear moves approx. 20 mm lower than the standard car when selecting the loading level. In total the loadspace sill is approx. 60 mm lower than in normal level, which helps reaching the luggage compartment with more comfort and ease. The terrain level remains untouched by the TECHART Air Suspension Module Sport and operates according to its serial configuration.

A unique product feature of the TECHART Air Suspension Module Sport for the Porsche Macan is the automatic parking lowering. Activated by remote-controlled locking at the vehicle's ignition key, the ride height is lowered by approx. 60 mm in comparison to the normal level. For more dynamics, also when standing still.

Original TECHART wheels do offer many possibilities of individualization for the Porsche Macan models. They are available in 21- and 22-inch as well as in various surface finishing combinations. Besides attractive colour combinations, all TECHART wheels can be customized individually to suit the vehicle.

TECHART interior refinement for the Porsche Macan models.

There is nothing as precious as your independence. Why should you let anyone else decide how to personalize your Porsche Macan?

TECHART handcrafted interiors are world famous for an extraordinary level of quality and accuracy. Select materials, tastefully coordinated colors, a sense of design with unmatched precision and craftsmanship. It is our aim to turn your individual vision of your personal Macan interior into reality. Whether you prefer to set selective highlights or entrust us to create your unique interior design to your specifications in every detail. TECHART sets no limits to what is possible.

The master craftsmen of the TECHART in-house saddlery are at your service and willing to share their years of experience to give personal advice. The result is not only visible. You will be able to sense it. Exquisite TECHART leather equipments are complemented by TECHART interior styling packages, selectively painted, in carbon fibre or in exotic woods. By request they customize seats, dashboard, centre console or door panels.

The new ergonomically shaped TECHART 3-spokes multifunctional sport steering wheel with TECHART paddle shifters allows precise vehicle handling. The TECHART aluminium sport pedals and the TECHART Aluminium Foot Rest provide ideal grip for precise control of throttle and brake. Extra features such as TECHART floor mats, the TECHART loadspace Floor Mat, as well as illuminated TECHART door entry guards grant imaginative interpretations in the vehicle's interior.
