

TECHART

*GT Sport*

TECHART Individuality made easy. For 911 Turbo S.

The TECHART GTsport is the modular individualization concept for the 992 series Porsche 911 Turbo S models. Its defined scope of customization allows a high level of individuality that sets the GTsport apart from any stock 911 Turbo S.

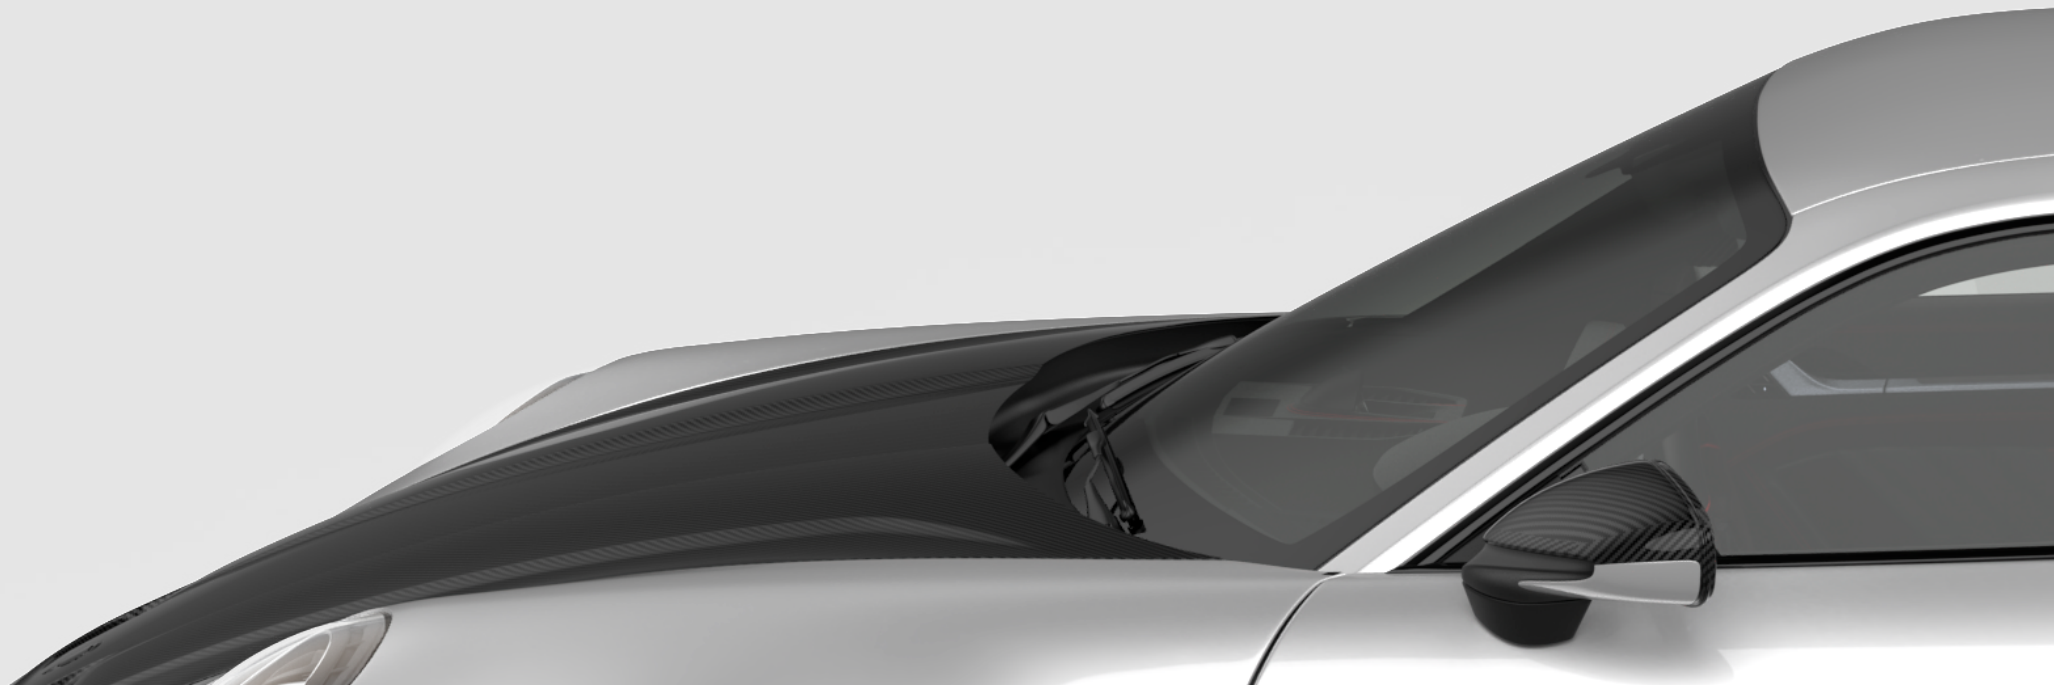

At the same time, creating a TECHART GTsport is an exceptionally easy task to handle. As a TECHART Partner, you can benefit immediately from the easy architecture of the modular GTsport customization concept.

This gives you the ability to make excitement really easy for your customers. After all, real individuality is a matter of choice. But even though the TECHART range is literally endless, the GTsport makes decisions effortless. It can be configured in no time.

TECHART has combined selected refinement options of the wide refinement bandwidth the brand offers. This creates a harmonious vehicle concept merging understatement and elegance with enhanced driving dynamics and true uniqueness.

Versatility is an inherent part of the TECHART GTsport. The defined TECHART GTsport signature scope ensures already an extraordinary level of customization.

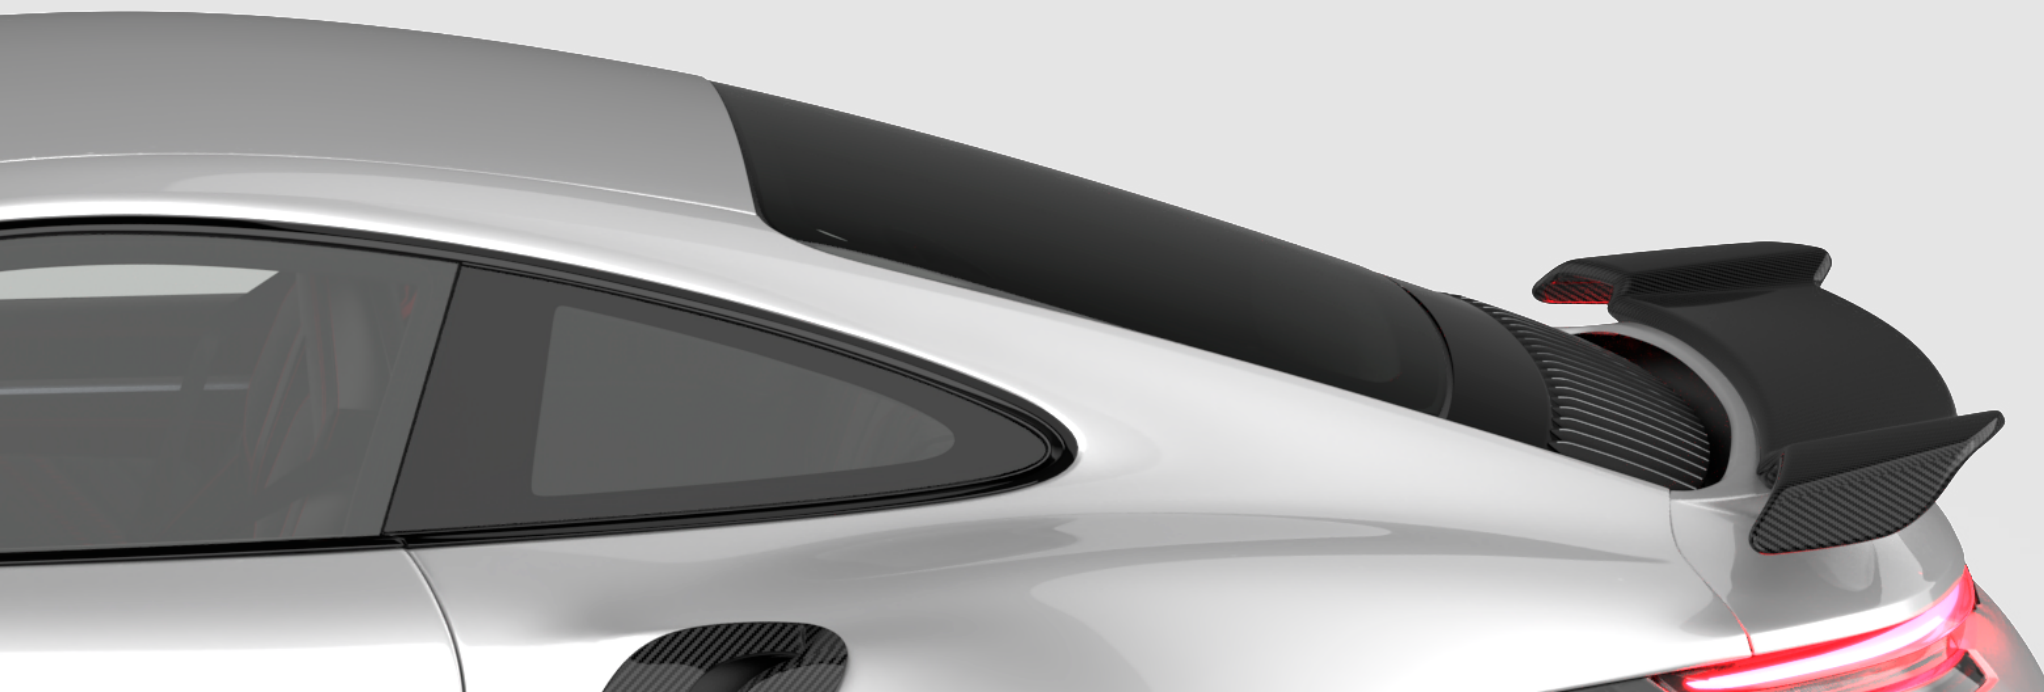

In addition, a range of optional GTsport refinement add-ons is at your customers' choice in order to adjust their GTsport specification to perfection with individual details.

# TECHART *GT Sport*

Easy. Exciting. Unique. For Porsche 911 Turbo S (992).
