

TECHART introduces new rear spoiler profile for the 911 GT3. Racing styling made of visible carbon fiber saves a third in weight.

Lightweight, aerodynamically sophisticated and individual. The new TECHART rear spoiler in visible carbon fiber excites with its unmistakable design and significant weight savings compared to the standard spoiler.

Leonberg, November 23rd, 2023 – TECHART individuality is always a statement. This is especially true for the refinement options for the Porsche 911 GT3 models. The new and ultra-light TECHART rear spoiler in visible carbon fiber is pure racing styling. The striking rear wing profile features newly shaped, large wing end plates. Compared to the standard wing, the TECHART rear spoiler weighs around 1,000 grams less. The spotless surface is finished either in high-gloss or satin matte, depending on the customer's choice.

A special feature and masterpiece of craftsmanship: the TECHART lettering is artfully integrated into the rear spoiler profile as an inlay made of carbon fiber or, on request, aramid carbon hybrid fabric. Alternatively, the lettering can also be chosen in a subtle design painted directly into the visible carbon fiber.

At www.techart.de/gt3, Porsche 911 GT3 owners and enthusiasts can get to know all other customization options and virtually experience the TECHART carbon aerokit, lightweight forged wheels and much more in the 3D configurator.

TECHART

PRESS INFORMATION

TECHART Automobildesign. The Brand. The Company.

TECHART Automobildesign GmbH, with its headquarters in Leonberg near Stuttgart, sets global standards in terms of premium refinement for Porsche cars. Founded in 1987, TECHART has been living this passion for over 30 years. With consistent implementation of own ideas and developments, high quality standards and continuous brand development, the company became an internationally renowned trademark with sales partners all over the world.

TECHART's product range offers refinement options for any Porsche model and every section of the vehicle: aerodynamic improvement and exterior styling, technical optimizations such as engine powerkits, exhaust systems, wheels, suspensions or assistance systems, as well as bespoke interior personalization, manufactured by TECHART's inhouse saddlery and upholstery shop. Approved as an internationally registered vehicle manufacturer and certified as Authorized Economic Operator (AEO-F) by the European Union, TECHART is the premium brand for the refinement of Porsche cars worldwide.
