TECHART for the Porsche 911: new standards in performance and styling.

Spectacular carbon fiber aerokits, emotional soundscapes and captivating handcrafted interiors. The TECHART product program for the Porsche 992 generation covers a wide spectrum of performance enhancements, ranging from power upgrades, including a new TECHART Powerkit for the 911 GTS, to bespoke exterior and interior refinements, all designed to meet the unique preferences of Porsche owners worldwide. Explore the TECHART program for the Porsche 911 at www.techart.com/992.

The complete TECHART individualization program for all Porsche 911 models encompasses an extensive range of upgrade options: from wind-tunnel tested aerokits, carbon fiber body parts, lightweight forged wheels in limitless color and styling variants, fine-tuned suspension setups and tailor-made interior refinements. For Porsche owners seeking ultimate driving performance and exclusivity, the TECHART signature conversions GTstreet R and GTstreet R Flyweight based on the Porsche 911 Turbo S deliver an unparalleled experience. Last but not least, the new TECHART Flyweight performance product division provides comprehensive track-day-ready enhancements, spearheaded by the clubsport package ensuring maximum performance and safety on the racetrack.

TECHART offers a wide range of engine power enhancements for nearly every 911 model from Carrera to Turbo S. The new TECHART Powerkit TA 092/S2.1 boosts the Porsche 911 GTS with an extra of 160 hp (118 kW) and a maximum torque that is increased by another 150 Nm. The total power output of 640 hp (471 kW) and 720 Nm emphasizes its powerful appearance on the track and the road. With TECHART's new powerkit, the top speed of the 911 GTS increases from 311 km/h to 320 km/h (electronically limited). Acceleration from 0 to 100 km/h is reduced from 3.4 to just 2.9 seconds compared to the production vehicle. With 9.4 seconds in the sprint from 0 to 200 km/h, the vehicle with the TECHART Powerkit is even more than 2 seconds faster than a standard 911 GTS.

At www.techart.com/buildyourown, Porsche owners can virtually customize their 911, whether owning a Carrera, Targa, Turbo or GT3 model, with TECHART options in 3D.

TECHART

PRESS INFORMATION

TECHART Automobildesign. The Brand. The Company.

TECHART Automobildesign GmbH, with its headquarters in Leonberg near Stuttgart, sets global standards in terms of premium refinement for Porsche cars. Founded in 1987, TECHART has been living this passion for over 30 years. With consistent implementation of own ideas and developments, high quality standards and continuous brand development, the company became an internationally renowned trademark with sales partners all over the world.

TECHART's product range offers refinement options for any Porsche model and every section of the vehicle: aerodynamic improvement and exterior styling, technical optimizations such as engine powerkits, exhaust systems, wheels, suspensions or assistance systems, as well as bespoke interior personalization, manufactured by TECHART's inhouse saddlery and upholstery shop.

Approved as an internationally registered vehicle manufacturer and certified as Authorized Economic Operator (AEO-F) by the European Union, TECHART is the premium brand for the refinement of Porsche cars worldwide.
